

IMPACT ACTIVITIES

CTW Events

GAMIFY YOUR EVENT

Gamification is the magic ingredient that elevates our events to the next level.

You may be thinking, what does it mean to "gamify" an event? By incorporating fun and interactive gaming activities into our experiences, we can engage attendees at every point of the event—beginning, middle, and end. Not sure what activity to add to your impact event? We've got you covered.

TRIVIA CHALLENGE

While attendees are engaging in an impact activity, put their knowledge to the test! A quick game of trivia will keep your attendees on their toes, and who doesn't love a prize for getting all the right answers?

INTERACTIVE SCAVENGER HUNT

Before the attendees begin their impact activity or after they have completed it, invite them to a scavenger hunt! Attendees can explore the event venue while activating their minds and bodies!

LEADERBOARD COMPETITION

If you want to introduce a bit of healthy competition, challenge your attendees to see who can complete a task the quickest, the most accurate, or whatever metric you'd like!
